

Console Mixers

Guardian Audio® Console Mixers are rugged, yet refined. From small format with 60mm faders to large center mix consoles with 100mm faders, they have all the features you need for your application.

Model	True Channel Count	Faders	Features
MM242	26	100mm	4 auxes, sweep mids, lighted mutes & PFL, 2 stereo channels, 4 sub groups, 48 volt phantom power selectable per channel, talkback
CM16X	16	60mm	3 band channel EQ, stereo 7 band graphic EQ, 16 digital effects, headphone out
CM12X	12	60mm	3 band channel EQ, stereo 7 band graphic EQ, 16 digital effects, headphone out
CM12	12	60mm	3 band channel EQ, stereo 7 band graphic EQ, reverb, headphone out
CM8X	8	60mm	3 band channel EQ, stereo 7 band graphic EQ, 16 digital effects, headphone out

From House of Worship to clubs, from permanent installs to touring bands, we offer the perfect console mixer for your needs. At Guardian Audio® we use TCC, True Channel Count. For example, the channel count on the MM242 is 26 - 24 mic preamps plus 2 stereo channels, each with it's own fader and controls.
