The P12 and P15 speakers have steel grills covered with acoustic foam for more aesthetic appeal. The internal crossover incorporates a lamp fuse for superior speaker protection. Many of the Pro Series have rotatable horns and multi-angle cabinets making them suitable for main front of house system or for use as floor monitors. The reinforced fly points expand installation possibilities. The S8 and P28 include a "U" mounting bracket. The P10W is made with high density fiberboard.
