

Tour Series

Guardian Audio® Tour Series speakers are constructed with 18mm plywood for exceptional sound quality and durability. The heavy steel grills and tough textured finish make them a great choice for production companies and live venues.

Model	Woofers	HF Driver	RMS Power	Sensitivity (1w/1m)	Frequency Response
T12M	12" Cast Frame	2"	300 Watts	110dB	50Hz~20kHz
T15	15" Cast Frame	1.75"	300 Watts	98dB	50Hz~20kHz
T118	18" Cast Frame	N/A	800 Watts	98dB	30Hz~350Hz

The Tour Series speakers use cast frame woofers and titanium diaphragm compression drivers. The internal crossover incorporates a lamp fuse for superior speaker protection. These speakers have a 1 3/8" stand mount to serve as main front of house system. The T12M has a multi-angled cabinet for use as a floor monitor. The T15 can be full range or bi-amped.
